

State Representative Candidate Forum on Climate and Environment

Thursday June 20, 7pm

Newton War Memorial Auditorium

City Hall, 1000 Commonwealth Ave.

Open to all at no charge

There are two open seats representing Newton and part of Brookline since both Kay Khan and Ruth Balsler have decided not to run again. They will be tough to replace. They have been informed and accessible as we have advocated for legislation to achieve climate goals.

JOIN US AT THE FORUM:

- **Hear candidate's positions on moving key climate legislation forward.**
- **Explore their top environmental priorities & what they will do to fight for those.**
- **Show candidates that their constituents care about climate and environment.**
- **Find out their approach to working with us - their constituency.**

We need excellent climate legislation at the state level to reach our climate goals in Newton and Brookline.

You can help ensure that we elect representatives who will fight for climate and environmental legislation that addresses our urgent need for clean air, energy, heat, and transportation.

Primary Election – Tuesday Sept 3, 2024
